

Plug and play system
for a simple integration!

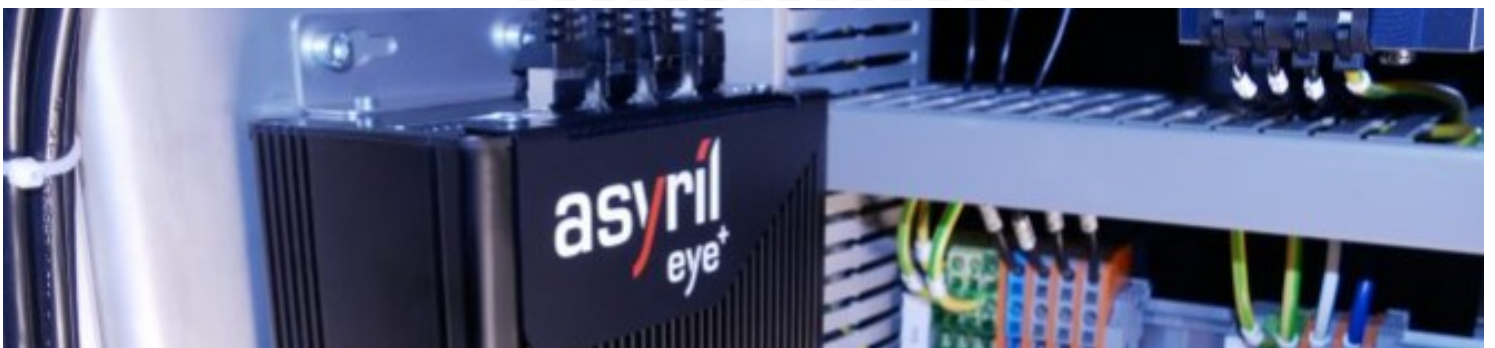

POWER LUNCH

Invest in yourself and learning about the latest technology on the market to solve age long problems and stay competitive! EYE+ optimizes the performance of your Asycube flexible feeder with an integrated vision based on Artificial Intelligence and a powerful controller. With EYE+ you have an innovative plug and play system that can be easily integrated into any automation machine. Turn & Burn in this information filled hour presented Dennis LeMaire and Bobby Carpenter. Lunch is also Included! Email sales@industrialcontrol.com to register for this Power Lunch.
